Chart patterns are linear throughout all time frames, which mean that a pattern that forms on a 5-minute chart performs the same way it would on a daily time frame chart. The only different is the range of prices being larger for wider time frames. Chart patterns can also form within chart patterns.

7 Chart Patterns - Traders' Library

For a Rounding Bottom chart pattern, buy when price closes above the high of the pattern. For a Rounding Top chart pattern, sell when price closes below the low of the pattern. You can take a more aggressive entry by looking for short-term price patterns before the completion of the pattern, especially if the volume pattern is encouraging.

10 Chart Patterns For Price Action Trading

To form a proper chart pattern, you have to have a prior uptrend. The idea behind bases is that after making a decent run, the stock begins forming stepping stones as it takes a breather and ...

The Three Most Common Chart Patterns - Page 1 | Stock News ...

Chart patterns occur when the price of an asset moves in a way that resembles a common shape, like a triangle, rectangle, head and shoulders, or—in this case—a cup and handle. These patterns are a visual way to trade. They provide a logical entry point, a stop-loss location for managing risk, and a price target for exiting a profitable trade.
